

Kaplan Early Learning Company... Online Learning Is Now In Season

A Child Care Leader in Professional Development

Kaplan Early Learning Company is a child care education company that covers all facets of the child care industry. Kaplan believes that education builds futures for both child care professionals and the children they affect. Our online course work, which is delivered by a user friendly Learning Management System, provides professional development Continuing Education Unit (CEU) credits for pre and ongoing clock hour training meeting annual licensing requirements. Certificates are delivered at the completion of each course.

Kaplan Early Learning Company ensures student success in an engaging learning environment. With the convenience and freedom of online learning, Kaplan continues to provide multiple training options for teachers and staff members in the childcare field.

Kaplan Early Learning Company...Dedicated to the Professional Development of Early Childhood and Child Care Staff Training Needs

Kaplan Early Learning Company is committed to the ongoing development of the children served by the child care professional. The management and executive team are focused on the needs and ongoing product development designed to address the current trends and issues in child care.

Online Professional Development Solutions... Benefits for the Child Care Professional

Flexibility:

Courses can be accessed through a regular Internet connection from anywhere in the world - home, work, or any location. All courses are available in English and Spanish.

Convenience:

Balance work, family, and social responsibilities. Access to course work is 24 x 7 x 365. Students work at their own pace.

Easy Access to Courses and Transcripts with the Online Learning Management System...

Students who utilize Kaplan Early Learning Company for their professional development will immediately recognize the convenience of online learning and comprehensive course content. This self paced learning environment is widely recognized by industry experts as leading edge and satisfies the current and future training needs of the child care industry.

Directors and owners can access each staff member's professional development progress report and print a complete professional development transcript. School Administrator functionality can be assigned to directors of each center or school. Meeting staff development licensing reporting requirements and ensuring consistency of training through a multi-level organization is simplified.

Competency Based Courses

Every course at Kaplan Early Learning Company is "competency based." Students must show an understanding of the content in order to advance to new content.
