

The Washington State Association of Head Start & ECEAP (WSA) is a non-profit organization that provides high quality training and advocates for the children, families, staff and friends of Head Start and ECEAP programs throughout the state of Washington.

WSA provides a strong voice in Washington, D.C. and Olympia as our legislators make decisions that affect low-income children and families. Our voice is made stronger by the continuing involvement of hundreds of Head Start and ECEAP parents and graduates.

We need your help to make our programs strong and continue to ensure that our elected officials hear from those who are most affected by their decisions. By signing up, we will provide periodic e-mail updates on what is going on with Head Start and ECEAP, what training is available to parents and staff, and what you can do to make your voice heard.

Help us make a difference! You can sign up here or at [www.wsaheadstarteceap.com/connect.html](http://www.wsaheadstarteceap.com/connect.html)
