

**WSTC** Washington State Head Start/ECEAP  
Training Consortium

## Save the Date—Foster Care Webinar 1/15/10

---

### *Understanding the Needs of Children in the Foster Care System*

We're delighted to be able to partner with **Casey Family Programs** to offer this session focused on the foster care system. This training will help you to better serve foster children and families in your Head Start, EHS or ECEAP program by helping you to understand the system and your role in it. By the end of the session you will better understand:

- How and why children enter the foster care system
- The range of placements possible for a child, including when and why children may need to move
- Who are the key players and what are their unique roles in a child's case
- Clarity around your role in advocating for and providing support to the child.
- And more!

**Tracy Flynn, M.Ed.** has over 20 years' experience as a trainer, educator, and facilitator, including serving as adjunct faculty at several universities. Previous positions include Health Curriculum Specialist with the Seattle Public Schools, Training Director with the National CASA Association (a national nonprofit providing grants, technical assistance, and training in the foster care system), and Director of Training with Planned Parenthood of Western Washington. Her expertise includes cultural competency, leadership and management training, harassment law and policy, child abuse and neglect, HIV/AIDS, facilitation, leadership coaching and management coaching skills. Tracy was the instructor for the Leadership & Management course at last year's WSTC Summer Institute.
